**Keegan Murray Reaches New Heights in Sacramento**  
*NBA Rookie Earns Honors as He Continues to Break Records*

**Sacramento, CA.** – Today, Keegan Murray (6-8, 225 pounds) had a career-high of 30 points against the Houston Rockets. This comes shortly after Murray was named Rookie of the Month for two consecutive months and broke the franchise record: most 3-pointers made by a rookie in one season, coming in at 135.

After two seasons with Iowa State, the 22-year-old Forward was selected fourth overall in the 2022 draft. He made his debut with the Kings in October against the Los Angeles Clippers, scoring 19 points, the third most by a Kings rookie in a debut.

“Murray has been a key component to our success this season and a notable addition to the team. It’s been a pleasure to not only coach him in his rookie year but also to witness his many career firsts,” said Sacramento Kings Head Coach Mike Brown. “I can’t wait to watch him continue growing as a player and reach new heights.”

As a rookie, Murray averages 12 points and 4.6 rebounds. In 54 games played, he is 44.4% from the field and 79.4% from the free throw line. His 3-pointers are something to talk about, making five 3-pointers or more in a total of seven games and averaging a 3-point field goal percentage of 41.7%, ranking him first in 3-point field goals made amongst all rookies this season.
